LL Financial Services, LLC's ability to provide our financial planning and consulting services depends on access to important information about our clients and it is essential that the information and financial statements you provide are accurate. This helps us determine the appropriateness of our planning and/or investment strategies for your portfolio.

Specific Investment Recommendations – As a component of our financial planning process, we are available to provide general and/or specific investment recommendations of individual securities held in your investment accounts. Investment reviews and recommendations are offered on a one-time or “snap-shot” basis. Therefore, we do not provide on-going, regular supervision or reviews of your accounts. Recommendations are based upon your specific needs and desires for future financial goals and/or objectives.

Please understand we will not have any authority or responsibility to implement our recommendations. All final decisions to accept our investment advice and implement our recommendations are the responsibility of the client. You are responsible for notifying LL Financial Services, LLC of any changes to your financial situation or investment objectives. We will meet with you to determine your financial situation and investment objectives and to find out if you would like to impose and/or modify any reasonable restrictions on your accounts.

It is important that you understand that we provide investment advice to other clients and may give them advice or take actions for them or for our personal accounts that is different from the advice we provide to you. We are not obligated in any way to recommend to you any security or other investment that we may recommend for any other clients or buy or sell for our own accounts.

Asset Management Services – For clients choosing to provide LL Financial Services, LLC access to their accounts to make trades and implement investment recommendations, we offer asset management services which involve LL Financial Services, LLC providing you with ongoing supervision over your specified accounts. We will review your accounts at least a quarterly basis and suggest changes when we determine it is appropriate.

You must appoint our firm as your investment adviser of record on specified accounts (collectively, the “Account”). The Account consists only of separate account(s) held by qualified custodian(s) under your name. The qualified custodians maintain physical custody of all funds and securities of the Account, and you retain all rights of ownership (e.g., right to withdraw securities or cash, exercise or delegate proxy voting and receive transaction confirmations) of the Account.

The Account is managed by us based on your financial situation, investment objectives and risk tolerance. We will review the Account and provide advice regarding buying, selling, reinvesting or holding securities, cash or other investments of the Account.

We will need to obtain certain information from you to determine your financial situation and investment objectives. You will be responsible for notifying us of any updates regarding your financial situation, risk tolerance or investment objective and whether you wish to impose or modify existing investment restrictions; however we will contact you at least annually to discuss any changes or updates regarding your financial situation, risk tolerance or investment objectives. We are always reasonably available to consult with you relative to the status of your Account. You have the ability to impose reasonable restrictions on the management of your accounts, including the ability to instruct us not to purchase certain securities.

It is important that you understand that we manage investments for other clients and may give them advice or take actions for them or for our personal accounts that is different from the advice we provide to you or actions taken for you. We are not obligated to buy, sell or recommend to you any security or other investment that we may buy, sell or recommend for any other clients or for our own accounts.

Conflicts may arise in the allocation of investment opportunities among accounts that we manage. We strive to allocate investment opportunities believed to be appropriate for your account(s) and other accounts advised by our firm among such accounts equitably and consistent with the best interests of all accounts involved. However, there can be no assurance that a particular investment opportunity that comes to our attention will be allocated in any particular manner. If we obtain material, non-public information about a security or its issuer that we may not lawfully use or disclose, we have absolutely no obligation to disclose the information to any client or use it for any client’s benefit.

Referrals to Third-Party Money Managers – For clients in need of a full-service investment management firm, we may recommend or suggest the use of one or more particular third-party money managers that offer asset management and other investment advisory services. Our role when recommending a third-party money manager is to simply introduce or recommend the firm. We do not otherwise assist you with establishing an account with the third-party money manager and we do not receive any portion of the fees charged by a third-party money manager. We do not have any paid-solicitor arrangements with a third-party money manager therefore we do not receive an economic incentive from a third-party money manager. The third-party managers are responsible for continuously monitoring client accounts and making trades in client accounts when necessary.

To the extent you choose to work with a firm recommended by us, the third-party money manager will typically take discretionary authority to determine the securities to be purchased and sold for your account. We do not have any trading authority with respect to your designated account managed by a third-party money manager.

Clients are advised that there may be other third-party managed programs not recommended by our firm, that are suitable for the client and that may be more or less costly than arrangements recommended by our firm. No guarantees can be made that a client's financial goals or objectives will be achieved by a third-party investment adviser recommended by our firm. Further, no guarantees of performance can ever be offered by our firm. You are not obligated or required to utilize the services of a third-party money manager recommended by our firm and can use any investment advisory firm you choose.

Non-Fiduciary Services

Although an investment adviser is considered a fiduciary under the Investment Advisers Act of 1940 and required to meet the fiduciary duties as defined by the Advisers Act, the services listed here as non-fiduciary should not be considered fiduciary services for the purposes of ERISA since Advisor is not acting as a fiduciary to the Plan as the term "fiduciary" is defined in Section 3(21)(A)(ii) of ERISA. The exact suite of services provided to a client will be listed and detailed in the Qualified Retirement Plan Agreement.

Securities and other types of investments all bear different types and levels of risk. Those risks are typically discussed with clients in defining the investment policies and objectives that will guide investment decisions for their qualified plan accounts. Upon request, as part of our retirement plan services, we can discuss those investments and investment strategies that we believe may tend to reduce these risks for a particular client's circumstances and plan participants.

Clients and plan participants must realize that obtaining higher rates of return on investments entails accepting higher levels of risk. Based upon discussions with the client, we will attempt to identify the balance of risks and rewards that is appropriate and comfortable for the client and other employees. It is still the clients' responsibility to ask questions if the client does not fully understand the risks associated with any investment. All plan participants are strongly encouraged to read prospectuses, when applicable, and ask questions prior to investing.

We strive to render our best judgment for clients. Still, LL Financial Services, LLC cannot assure that investments will be profitable or assure that no losses will occur in their portfolios. Past performance is an important consideration with respect to any investment or investment advisor, but it is not necessarily an accurate predictor of future performance.

LL Financial Services, LLC will disclose, to the extent required by ERISA Regulation Section 2550.408b-2(c), to you any change to the information that we are required to disclose under ERISA Regulation Section 2550.408b-2(c)(1)(iv) as soon as practicable, but no later than sixty (60) days from the date on which we are informed of the change (unless such disclosure is precluded due to extraordinary circumstances beyond our control, in which case the information will be disclosed as soon as practicable).

In accordance with ERISA Regulation Section 2550.408b-2(c)(vi)(A), we will disclose within thirty (30) days following receipt of a written request from the responsible plan fiduciary or Plan Administrator (unless such disclosure is precluded due to extraordinary circumstances beyond our control, in which case the information will be disclosed as soon as practicable) all information related to the Qualified Retirement Plan Agreement and any compensation or fees received in connection with the Agreement that is required for the Plan to comply with the reporting and disclosure requirements of Title 1 of ERISA and the regulations, forms and schedules issued thereunder.

If we make an unintentional error or omission in disclosing the information required under ERISA Regulation Section 2550.408b-2(c)(1)(iv) or (vi), we will disclose to you the correct information as soon as practicable, but no later than thirty (30) days from the date on which we learn of such error or omission.

We will strive to focus and recommend investment vehicles that are diversified, tax-efficient, and low-cost investments whenever practical. Although it is common to find a broad range of index mutual funds or ETFs within a portfolio, certain accounts may necessitate holding actively-managed mutual funds, individual equities and fixed income positions, as well as pre-existing holdings with a client portfolio when deemed appropriate.

It is not our typical investment strategy to attempt to time the market, but we may increase cash holdings modestly as deemed appropriate based on your risk tolerance and our expectations of market behavior. We may modify our investment strategy to accommodate special situations such as low basis stock, stock options, legacy holdings, inheritances, closely held businesses, collectibles, or special tax situations.

Client investment guidelines may or may not limit the scope of potential investments. As a result, clients can impose restrictions on investing in certain securities or types of securities. When selecting securities and determining amounts to invest; we observe the investment guidelines and restrictions of the client. LL Financial Services, LLC evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. Investment guidelines and restrictions will be documented in writing and signed off at the end of the client meeting.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs.

Retirement Plan Rollover Recommendations. When LL Financial Services, LLC provides investment advice about your retirement plan account or individual retirement account ("IRA") including whether to maintain investments and/or proceeds in the retirement plan account, roll over such investment/proceeds from the retirement plan account to a IRA or make a distribution from the retirement plan account, we acknowledge that LL Financial Services, LLC is a "**fiduciary**" within the meaning of Title I of the Employee Retirement Income Security Act ("ERISA") and/or the Internal Revenue Code ("IRC") as applicable, which are laws governing retirement accounts. The way LL Financial Services, LLC makes money creates conflicts with your interests so LL Financial Services, LLC operates under a special rule that requires LL Financial Services, LLC to act in your best interest and not put our interest ahead of you.

Under this special rule's provisions, LL Financial Services, LLC must as a fiduciary to a retirement plan account or IRA under ERISA/IRC:

- Meet a professional standard of care when making investment recommendations (give prudent advice);
- Never put the financial interests of LL Financial Services, LLC ahead of you when making recommendations (give loyal advice);
- Avoid misleading statements about conflicts of interest, fees, and investments;
- Follow policies and procedures designed to ensure that LL Financial Services, LLC gives advice that is in your best interest;
- Charge no more than is reasonable for the services of LL Financial Services, LLC; and
- Give Client basic information about conflicts of interest.

To the extent we recommend you roll over your account from a current retirement plan account to an individual retirement account managed by LL Financial Services, LLC, please know that LL Financial Services, LLC and our investment adviser representatives have a conflict of interest.

We can earn increased investment advisory fees by recommending that you roll over your account at the retirement plan to an IRA managed by LL Financial Services, LLC. We will earn fewer investment advisory fees if you do not roll over the funds in the retirement plan to an IRA managed by LL Financial Services, LLC.

Thus, our investment adviser representatives have an economic incentive to recommend a rollover of funds from a retirement plan to an IRA which is a conflict of interest because our recommendation that you open an IRA account to be managed by our firm can be based on our economic incentive and not based exclusively on whether or not moving the IRA to our management program is in your overall best interest.

we have taken steps to manage this conflict of interest. we have adopted an impartial conduct standard whereby our investment adviser representatives will (i) provide investment advice to a retirement plan participant regarding a rollover of funds from the retirement plan in accordance with the fiduciary status described below, (ii) not recommend investments which result in LL Financial Services, LLC receiving unreasonable compensation related to the rollover of funds from the retirement plan to an IRA, and (iii) fully disclose compensation received by LL Financial Services, LLC and our supervised persons and any material conflicts of interest related to recommending the rollover of funds from the retirement plan to an IRA and refrain from making any materially misleading statements regarding such rollover.

When providing advice to a retirement plan account or IRA, our investment advisor representatives will act with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims, based on the investment objectives, risk, tolerance, financial circumstances, and a client's needs, without regard to the financial or other interests of LL Financial Services, LLC or our affiliated personnel.

Item 5 – Fees and Compensation

If you choose to have the investment advisory fees deducted from your account, you must authorize the qualified custodian(s) of your account to deduct fees from your account and pay such fees directly to LL Financial Services, LLC. Our firm will send you a billing statement prior to the time that fee deduction instruction is sent to the qualified custodian(s) of your account. The billing statement will detail the formula used to calculate the fee, the assets under management and the time period covered.

You should review your account statements received from the qualified custodian(s) and verify that appropriate investment advisory fees are being deducted. The qualified custodian(s) will not verify the accuracy of the investment advisory fees deducted.

To the extent we utilize the services of an outside professional (i.e. attorney, independent investment adviser or accountant) recommended by our firm or selected by you while providing financial planning services, you will be responsible for the payment of the fees for the services of such an outside professional. LL Financial Services, LLC will not be required to reimburse you for such payments. Fees for the services of an outside professional (i.e. attorney, independent investment adviser or accountant) will be in addition to and separate from the fees charged by LL Financial Services, LLC, and you will be responsible for the payment of the fees for the services of such an outside professional. In no event will the services of an outside professional be engaged without your express approval.

All fees paid to LL Financial Services, LLC for financial planning or consulting services are separate and distinct from the commissions, fees, and expenses charged by a broker-dealer/qualified custodian or asset management fees charged by an investment adviser to implement such recommendations. We do not receive any portion of such fees and expenses.

Brokerage commissions and/or transaction ticket fees charged by the qualified custodian are billed directly to you by the qualified custodian. LL Financial Services, LLC does not receive any portion of such commissions or fees from you or the qualified custodian. In addition, you may incur certain charges imposed by third parties other than LL Financial Services, LLC in connection with investments made through your account including, but not limited to, mutual fund sales loads, 12(b)-1 fees and surrender charges, variable annuity fees and surrender charges, IRA and qualified retirement plan fees, and charges imposed by the qualified custodian(s) of your account. Management fees charged by LL Financial Services, LLC are separate and distinct from the fees and expenses charged by investment company securities that may be recommended to you. A description of these fees and expenses are available in each investment company security's prospectus.

Retirement Plan Services

For retirement plan sponsor clients, we charge an initial setup fee calculated based upon time spent and billed on an hourly basis of \$400/hour. The initial setup fee is due upon receipt of an invoice from LL Financial Services, LLC.

Once the plan is established, LL Financial Services, LLC will charge an annual fee of 1.00% that is calculated as a percentage of the value of plan assets. This fee is not negotiable.

Annual fees are divided and billed in arrears (at the end of the billing period) on a monthly basis and calculated based on the fair market value of your account as of the last business day of the current billing period. Fees are prorated (based on the number of days service is provided during the initial billing period) for your account opened at any time other than the beginning of the billing period.

Monthly fees will be directly deducted from the plan. Clients are required to provide the custodian with written authorization to deduct the fees from the plan and pay the fees to LL Financial Services, LLC. We will provide the custodian with a fee notification statement.

Either party may terminate the services upon providing the other party providing with written notice of termination effective upon 90 after the other party receives such notice. If services are terminated within five business days of signing the client agreement, services are terminated without penalty and no fees due. Any prepaid but unearned fees are promptly refunded to the client at the effective date of termination.

LL Financial Services, LLC does not reasonably expect to receive any other compensation, direct or indirect, for its Services. If we receive any other compensation for such services, we will (i) offset that compensation against our stated fees, and (ii) will disclose the amount of such compensation, the services rendered for such compensation and the payer of such compensation to you.

Item 6 – Performance-Based Fees and Side-By-Side Management

Performance-based fees are defined as fees based on a share of capital gains on or capital appreciation of the assets held in a client's account. *Item 6* is not applicable to this Disclosure Brochure because we do not charge or accept performance-based fees.

Item 7 – Types of Clients

LL Financial Services, LLC generally provides investment advice to the following types of clients:

- Individuals
- High net worth individuals
- Trusts, estates, or charitable organizations
- Corporations or business entities other than those listed above

You are required to execute a written agreement with LL Financial Services, LLC specifying the particular advisory services in order to establish a client arrangement with LL Financial Services, LLC.

No Minimum Investment Amounts Required

We do not require a minimum asset income, asset levels or other similar preconditions for our services. We reserve the right to waive or reduce certain fees based on unique individual circumstances, special arrangements or preexisting relationships. We may also decline our services to a prospective client for any non-discriminatory reason.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

LL Financial Services, LLC uses Fundamental analysis when formulating specific investment recommendations. This is a method of evaluating a security by attempting to measure its intrinsic value by examining related economic, financial and other qualitative and quantitative factors. Fundamental analysts attempt to study everything that can affect the security's value, including macroeconomic factors (like the overall economy and industry conditions) and individually specific factors (like the financial condition and management of a company). The end goal of performing fundamental analysis is to produce a value that an investor can compare with the security's current price in hopes of figuring out what sort of position to take with that security (underpriced = buy, overpriced = sell or short). Fundamental analysis is considered to be the opposite of technical analysis. Fundamental analysis is about using real data to evaluate a security's value. Although most analysts use fundamental analysis to value stocks, this method of valuation can be used for just about any type of security.

The risk associated with fundamental analysis is that it is somewhat subjective. While a quantitative approach is possible, fundamental analysis usually entails a qualitative assessment of how market forces interact with one another in their impact on the investment in question. It is possible for those market forces to point in different directions, thus necessitating an interpretation of which forces will be dominant. This interpretation may be wrong and could therefore lead to an unfavorable investment decision.

Investment Strategies

LL Financial Services, LLC uses the following investment strategies when providing specific or general investment recommendations.

LL Financial Services, LLC employs an investment philosophy emphasizing an approach custom tailored to the needs of each client. We begin the investment process by carefully listening to the client and gaining a thorough understanding of the client's unique goals, risk tolerance, time horizon, and other circumstances. We then determine an appropriate investment strategy for the client based on that

understanding. Further customizing of the portfolio takes into consideration individual client preferences such as social investing, concentrated positions, existing holdings, taxes, and other considerations.

The investment strategy provides a framework for determining the asset allocation that properly balances risk and reward over a long-term time horizon. Asset allocation is the relative mix of cash, fixed income, and equity securities suitable for a client's investment portfolio. LL Financial Services, LLC believes investment risk is lessened when a portfolio is diversified. Diversification is a disciplined long-term investment strategy that helps prevent overexposure to asset classes or specific securities and identifies a fitting time when exposure to an undervalued asset class or security may be present. We combine asset allocation with diversification to ensure a client's portfolio will be managed in a prudent manner. We then implement the strategy to achieve the client's investment objectives. Although strategies can be changed if necessary, adhering to the asset allocation over the pre-determined time horizon seeks to provide enhanced portfolio returns with reduced volatility.

Capital preservation, however, is also an important consideration of our investment philosophy. We believe it is inappropriate to take unwarranted risk in either portfolio structure or individual securities.

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes. Short term trading and options writing generally hold greater risk and clients should be aware that there is a material risk of loss using any of those strategies.

Clients are reminded they are under no obligation to act on the investment recommendations of LL Financial Services, LLC. Please understand we will not have any authority or responsibility to implement our recommendations. All final decisions to accept our investment advice and implement our recommendations are the responsibility of the client.

Primarily Recommend One Type of Security

We do not primarily recommend one type of security to clients. Instead, we recommend any product that may be suitable for each client relative to that client's specific circumstances and needs.

Risk of Loss

Past performance is not indicative of future results. Therefore, you should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities (including stocks, mutual funds, and bonds, etc.) involves risk of loss. Further, depending on the different types of investments there may be varying degrees of risk. You should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines. There are certain additional risks associated with investing in securities through our investment management program, as described below:

- **Market Risk** – Either the stock market as a whole, or the value of an individual company, goes down resulting in a decrease in the value of client investments. This is also referred to as systemic risk.

- Equity (stock) market risk – Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. If you held common stock, or common stock equivalents, of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer.
- Company Risk. When investing in stock positions, there is always a certain level of company or industry specific risk that is inherent in each investment. This is also referred to as unsystematic risk and can be reduced through appropriate diversification. There is the risk that the company will perform poorly or have its value reduced based on factors specific to the company or its industry. For example, if a company's employees go on strike or the company receives unfavorable media attention for its actions, the value of the company may be reduced.
- Fixed Income Risk. When investing in bonds, there is the risk that the issuer will default on the bond and be unable to make payments. Further, individuals who depend on set amounts of periodically paid income face the risk that inflation will erode their spending power. Fixed-income investors receive set, regular payments that face the same inflation risk.
- Options Risk. Options on securities may be subject to greater fluctuations in value than an investment in the underlying securities. Purchasing and writing put and call options are highly specialized activities and entail greater than ordinary investment risks.
- ETF and Mutual Fund Risk – When investing in an ETF or mutual fund, you will bear additional expenses based on your pro rata share of the ETF's or mutual fund's operating expenses, including the potential duplication of management fees. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities the ETF or mutual fund holds. You will also incur brokerage costs when purchasing ETFs.

Item 9 – Disciplinary Information

Item 9 is not applicable to this Disclosure Brochure because there are no legal or disciplinary events that are material to a client's or prospective client's evaluation of our business or integrity.

LL Financial Services, LLC or supervised persons of the firm may buy or sell for their personal accounts, investment products identical to those recommended to clients. This creates a potential conflict of interest. It is the express policy of LL Financial Services, LLC that all persons associated in any manner with our firm must place clients' interests ahead of their own when implementing personal investments. LL Financial Services, LLC and its associated persons will not buy or sell securities for their personal account(s) where their decision is derived, in whole or in part, by information obtained as a result of employment or association with our firm unless the information is also available to the investing public upon reasonable inquiry.

We are now and will continue to be in compliance with applicable state and federal rules and regulations. To prevent conflicts of interest, we have developed written supervisory procedures that include personal investment and trading policies for our representatives, employees and their immediate family members (collectively, supervised persons). Any supervised person not observing our policies is subject to sanctions up to and including termination.

Item 12 – Brokerage Practices

Clients are under no obligation to act on the financial planning recommendations or investment consulting recommendations of LL Financial Services, LLC.

For clients that need a recommendation or suggested brokerage platform, we frequently recommend TD Ameritrade, Charles Schwab & Co, Fidelity Investments and E*Trade Financial Corporation. We do not have written agreements in place with any of these firms. We do not receive any soft dollar benefits from a broker/dealer and do not receive client referrals from a broker/dealer. Although we may recommend or suggest a broker/dealer, you are free to utilize any broker/dealer or other qualified custodian of your choice.

You will open your account with your broker/dealer or qualified custodian of choice by entering into an account agreement directly with them. We do not open the account for you, but we can assist you in that process.

For clients that would like us to trade their accounts through our Asset Management Services program we may recommend/require that clients establish brokerage accounts with Charles Schwab & Co., Inc. ("Schwab"), TD Ameritrade or E*Trade. Schwab, TD Ameritrade and E*Trade are FINRA-registered broker-dealers, Members SIPC, and maintain custody of clients' assets and effect trades for their accounts.

Although LL Financial Services, LLC may recommend/require the clients establish accounts at Schwab, TD Ameritrade and E*Trade, it is the client's decision to custody assets with Schwab, TD Ameritrade and E*Trade. LL Financial Services, LLC is independently owned and operated and not affiliated with the broker/dealers we recommend.

Schwab, TD Ameritrade and E*Trade's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments.

For LL Financial Services, LLC's clients' accounts maintained in its custody, Schwab, TD Ameritrade and E*Trade generally do not charge separately for custody services but are compensated by account holders through commissions or other transaction-related or asset based fees for securities trades that are executed through Schwab, TD Ameritrade and E*Trade or that settle into their accounts.

Recommended broker/dealers also make available to LL Financial Services, LLC other products or services that benefit LL Financial Services, LLC but may not directly benefit clients' accounts. Many of these products and services may be used to service all or some substantial number of LL Financial Services, LLC's accounts.

The products and services of recommended broker/dealers that assist LL Financial Services, LLC in managing and administering clients' accounts include software and other technology that (i) provides access to client account data (such as trade confirmations and account statements); (ii) facilitate trade execution and allocate aggregated trade orders for multiple client accounts; (iii) provide research, pricing and other market data; and (iv) assist with back-office functions, recordkeeping and client reporting.

Schwab, TD Ameritrade and E*Trade also offer other services intended to help LL Financial Services, LLC manage and further develop its business enterprise. These services may include: (i) compliance, legal and business consulting; (ii) publications and conferences on practice management and business succession; and (iii) access to employee benefits providers, human capital consultants and insurance providers.

Schwab, TD Ameritrade and E*Trade may discount or waive fees it would otherwise charge for some of these services or pay all or part of the fees of a third-party providing these services to LL Financial Services, LLC. The recommended broker/dealers may also provide other benefits such as educational events or occasional business entertainment of LL Financial Services, LLC personnel. While as a fiduciary, LL Financial Services, LLC endeavors to act in its clients' best interests, LL Financial Services, LLC's recommendation that clients maintain their assets in accounts at Schwab, TD Ameritrade and E*Trade may take into account availability of some of the foregoing products and services and other arrangements not solely on the nature of cost or quality of custody and brokerage services provided by the recommended broker/dealer, which may create a potential conflict of interest.

Block Trading Policy

Investment advisors may elect to purchase or sell the same securities for several clients at approximately the same time when they believe such action may prove advantageous to clients. This process is referred to as aggregating orders, batch trading or block trading. LL Financial Services, LLC does not engage in block trading.

It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy is to implement all client orders on an individual basis. Therefore, we do not aggregate or “block” client transactions. Considering the types of investments we hold in advisory client accounts; we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

Item 13 – Review of Accounts

Account Reviews and Reviewers

Our financial planning services terminate upon thirty (30) days following the delivery of the written financial plan. Our financial planning services do not include monitoring the investments of your account(s), and therefore, there is no ongoing review of your account(s) under such services.

However, we recommend you have your financial and investment situation reviewed at least annually whenever practical. Because services terminate upon presentment of the plan, you will need to execute a new agreement and pay additional fees when updates to your financial planning situation are provided. Reviews will be conducted under the guidance of Lawrence Blau and normally involves an analysis and possible revision of your previous financial plan or investment allocation. A copy of revised plans or asset allocation reports will be provided to the client upon request.

Managed accounts are reviewed at least quarterly. While the calendar is the main triggering factor, reviews can also be conducted at your request. Account reviews will include investment strategy and objectives review and making a change if strategy and objectives have changed. Reviews are conducted by Larry Blau, with reviews performed in accordance with your investment goals and objectives.

Statements and Reports

We may provide an on-demand position report reflecting your current investment holdings but do not otherwise provide performance or on-going position reports.

You will receive regular account statements directly from your broker/dealer or qualified custodian.

Whether reports by an outside money manager are provided to you will depend upon the outside money manager.

Financial planning and consulting clients do not receive any report other than the written plan originally contracted for and provided by LL Financial Services, LLC.

Retirement Plan Service clients do not receive special reports or statements issued by LL Financial Services, LLC. All reports and statements for the plan will be provided by the plan administrator and/or custodian.

Item 14 – Client Referrals and Other Compensation

The only compensation received from advisory services is the fees charged for providing investment advisory services as described in *Item 5* of this Disclosure Brochure. LL Financial Services, LLC receives no other forms of compensation in connection with providing investment advice.

LL Financial Services, LLC does not directly or indirectly compensate anybody for client referrals.

Item 15 – Custody

Custody, as it applies to investment advisors, has been defined by regulators as having access or control over client funds and/or securities. In other words, custody is not limited to physically holding client funds and securities. If an investment adviser has the ability to access or control client funds or securities, the investment adviser is deemed to have custody and must ensure proper procedures are implemented.

LL Financial Services, LLC is deemed to have custody of client funds and securities whenever we are given the authority to have fees deducted directly from client accounts. However, this is the only form of custody our firm will ever maintain. It should be noted that authorization to trade in client accounts is not deemed by regulators to be custody.

For accounts in which LL Financial Services, LLC is deemed to have custody, we have established procedures to ensure all client funds and securities are held at a qualified custodian in a separate account for each client under that client's name. Clients or an independent representative of the client will direct, in writing, the establishment of all accounts and therefore are aware of the qualified custodian's name, address and the manner in which the funds or securities are maintained. Finally, account statements are delivered directly from the qualified custodian to each client, or the client's independent representative, at least quarterly. Clients should carefully review those statements and are urged to compare the statements against reports received from LL Financial Services, LLC. When clients have questions about their account statements, they should contact LL Financial Services, LLC or the qualified custodian preparing the statement.

When fees are deducted from an account, LL Financial Services, LLC is responsible for calculating the fee and delivering instructions to the custodian. At the same time LL Financial Services, LLC instructs the custodian to deduct fees from your account; LL Financial Services, LLC will send you an invoice itemizing the fee. Itemization will include the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.

Item 16 – Investment Discretion

When providing asset management services, LL Financial Services, LLC maintains trading authorization over your Account. We primarily provide management services on a **non-discretionary** basis. This means we will be required to contact you prior to implementing changes in your account. Therefore, you will be contacted and required to accept or reject our investment recommendations including:

- The security being recommended
- The number of shares or units
- Whether to buy or sell

Once the above factors are agreed upon, we will be responsible for making decisions regarding the timing of buying or selling an investment and the price at which the investment is bought or sold. If your

accounts are managed on a non-discretionary basis, you need to know that if you are not able to be reached or are slow to respond to our request, it can have an adverse impact on the timing of trade implementations and we may not achieve the optimal trading price.

You will have the ability to place reasonable restrictions on the types of investments that may be purchased in the Account. You may also place reasonable limitations on the discretionary power granted to LL Financial Services, LLC so long as the limitations are specifically set forth or included as an attachment to the client agreement.

On a more limited basis, and only at the express authorization of a client, we can provide management services on a **discretionary** basis. When discretionary authority is granted, we will have the authority to determine the type of securities, the amount of securities that can be bought or sold and the broker or dealer to be used for your portfolio without obtaining your consent for each transaction. However, it is the policy of LL Financial Services, LLC to consult with you prior to making significant changes in the account even when discretionary trading authority is granted.

Item 17 – Voting Client Securities

LL Financial Services, LLC does not vote proxies on behalf of Clients. Therefore, it is your responsibility to vote all proxies for securities held in Account.

You will receive proxies directly from the qualified custodian or transfer agent; we will not provide you with the proxies. You are encouraged to read through the information provided with the proxy-voting documents and make a determination based on the information provided.

Item 18 – Financial Information

This *Item 18* is not applicable to this brochure. LL Financial Services, LLC does not require or solicit prepayment of more than \$500 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for the most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, LL Financial Services, LLC has not been the subject of a bankruptcy petition at any time.
